## ABOUT ME

With 5 years of experience in the ever thrilling world of coding. I am confident in my skills and know how to reach my goals. What drives me is the collaboration, the collective brainstorming, and the constant quest to learn!

## SKILL

Typescript (React, Vue...)

PHP (Laravel)

Java (Maven)

Data management

Command Prompt

Node JS

## LANGUANGE

French

English

## ACHIEVEMENTS

🏆 **Vue 3 Component Library**
*2023 - Monizze*

## EXPERIENCE

**2022-2024**

### PHP DEVELOPER
*Monizze*
Using technologies like Vue 3 and Laravel, I was tasked to maintain their internal web platform to manage their customers up to date and fueled with new features.

**2021-2022**

### JAVA DEVELOPER
*BNP Parisbas ~ Capgemini*
As a consultant, I build an onboarding platform for their important clients. Using react for the interface and Java & MariaDB for the back-end

**2018-2020**

### PROJECT DEVELOPER
*Efficy*
Adapt their standard CRM web platform to adopt specific customisation request of customers using javascript and SQL. Quite some database management & querying was needed as well.

## EDUCATION

**2015-2018**  **Bachelor Multec**
Erasmus Highschool Brussel
